

The GP Clinical Pharmacy team work with practice staff to provide the best patient care

... helping you manage long term conditions

... discussing medicine concerns with you – for example, side effects

... providing clinics to review your regular medicines

... offering solutions if you're affected by medicine shortages

Clinical Pharmacist • Pharmacy Technician • Support Worker

We can help you use your medicines safely and effectively by...

... checking test results to ensure your medicines are still appropriate

... reviewing and prescribing medication

... liaising with health and social care partners to enhance your care

Working together to achieve the healthiest life possible for everyone in Ayrshire and Arran
